

# HOW TO

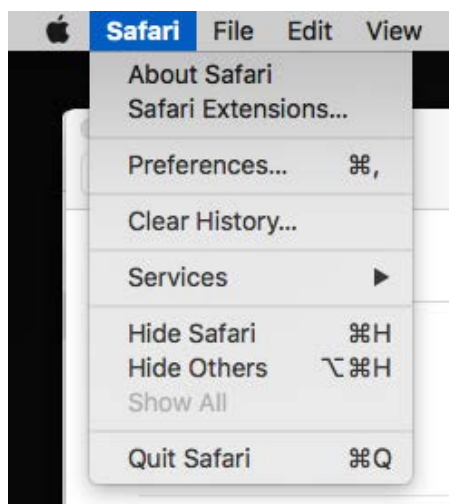

## ADJUST YOUR BROWSER SETTINGS USING A MAC

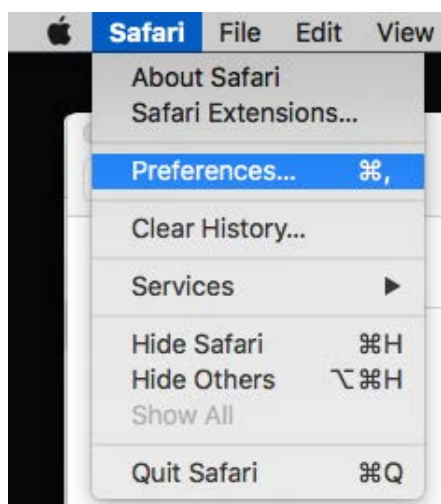

In Safari on your Mac, click “Safari”, then “Preferences” and then choose “Privacy”. You can then change your cookie settings to “Always allow” cookies.

Please see below for screenshots to help you incorporate this change. We apologize for the inconvenience.

### Step 1: Click Safari

### Step 2: Select “Preference”

### Step 3: Choose “Privacy” and change your cookie settings to “Always allow”
